BOOTH E16

GET THE LATEST UPDATE ON OUR RSM IML PRODUCT LINE FOR THE HIGH EFFICIENT CUTTING AND STACKING OF INMOULD LABELS AT LABEL SUMMIT LATIN AMERICA 2024

Dear Sir or Madam,

Schobertechnologies is pleased to announce its participation at Label Summit Latin America 2024. Our Team is looking forward to welcoming you at our booth. If you have specific projects, we will be happy to advise you. You are more than welcome to bring along samples, photos, drawings, ... If you do not have any specific projects for the moment, we will still be happy to show you our exhibits. We are sure that you will be able to draw ideas for the future.

[LEARN MORE](#)

Rotary die cutting and perforating module

for processing multiple blisters in one sheet or as an individual package, made out of various materials, among all PVC and PET.

High-capacity rotary die cutting module

with high precision magnetic cylinder and quick lifting device, for web widths up to 1,000 mm and cylinder repeats up to 48".

Punching module with integrated slitter

For the production of corner rounding for tea-tags and -bags. The immediate length cut after punching enables an extremely precise alignment of the punching profile.

Built-in and Drop-in punching modules

with New Generation line hole punching tools and punch waste removal device designed to be integrated in almost every narrow web printing press.
